

## Dyspraxia Foundation South East Wales Support Group

The Dyspraxia Foundation is a charity that aims to support individuals and families affected by dyspraxia, whilst recognising that motor difficulties often do not occur in isolation. Motor difficulties often coexist alongside other conditions such as: Attention Deficit Hyperactivity Disorder (ADHD); Dyslexia and Speech and Language Impairment (SLI).

This local support group, run by volunteers, aims to offer an accessible point of contact for those living in South East Wales.

The group:

- Provides support and advice to families and individuals
- Offers opportunities for families and individuals to meet face to face
- Provides regular opportunities for children to make friends and have fun
- Aims to raise awareness and understanding of dyspraxia
