Health and Social Care

What will pupils gain from this subject?

With the demographics in the UK changing rapidly and the population living longer, the health and social care sectors will experience huge growth over the next few years. Cambridge Technicals at Level 3 offer students a broad and in-depth foundation for either the modern workplace or further studies.

The qualification students can achieve is the introductory diploma.

The Content of Key Stages

Key Stage 5 (AS/A level)

The health and social care sector employs vast numbers of people across the country within a varied range of job roles, with the workforce totalling around 3 million people. Many careers involve meeting the needs of people and, with this in mind, the Cambridge Technicals in Health and Social Care offer a wide range of units. These enable students to learn about key areas and to meet the needs of people in the Health and Social Care sector. Including the individual's rights and needs, cultural diversity, the impact of diet, coping with change, and the needs of people at different life stages. This qualification is an ideal foundation for students entering the workplace, providing them with a theoretical background reinforced with practical skills that transfer into the modern workplace.
