

Workshops

Construction EdExcel

What will pupils gain from this subject?

Very successful continually assessed BTEC vocational course which offers an insight into the world of the construction industry and the trade skills of carpentry and building environments.

The Content of Key Stages

Key Stage 4 (GCSE)

A 2 year BTEC course that studies all aspects of the construction industry today, practical work plays an important part in purpose built vocational carpentry workshops, experiencing hand skills with tools and machinery, bench work and health and safety considerations. Assignment work is key, with pupils taking responsibility for their progress and learning.
